PROMOTERS OF THE SEVENTEENTH STREET VIADUCT CONFIDENT.

Committee Appointed at a Meeting Held Last Night to Circulate Copies of a Petition-Boundaries of the Proposed District.

Another meeting of citizens interested in the proposed viaduct at Seventeenth street was held last evening at Belinder's hall, at Seventeenth and Holly streets. It was determined to make an earnest campaign all over the city in the interest of the viaduct by circulating copies of a petition asking signatures of citizens to a request that the council take no action in the matter of the vacation of Bell street, as asked for by the stock yards company, until that company shall assent to the location of the viaduct on Seventeenth street, and assume its share of the cost of its constitution. The movement for this point was put in motion by Alderman Morrison and Alderman start out to-morrow morning to canvass the city for signatures to the petition.

In addition to the campaign along this line the gentlemen present agreed to a motion made by Mr. Belinder, at the suggestion of Alderman Morrison and Alderman Craig, that there be a very large number of the advocates of the viaduct at the meetings of the council. These members of the city legislative bodies stated that the presence of many citizens gave great force of any city of the viaduct as the meetings of the council. These members of the city legislative bodies stated that the presence of many citizens gave great force of any city of the council. These members of the city legislative be taken the appears before the summer of the presence of many citizens gave great force of any city legislative be taken to bring the charges last summer when the investigation for the proper many council and the proper many city of the council and the proper many city of the council. These members of the city legislative be taken to be presented to a scount for it."

ESCAFE FROM DEATH'S JAWS.

company shall assent to the location of the viaduct on Seventeenth street, and assume its stare of the cost of its construction. The movement for this point was put in motion by Alderman Morrison and, acting on his plan, there will be fifteen gentiemen start out to-morrow morning to canvass the city for signatures to the petition.

In addition to the campaign along this line the gentlemen present agreed to a motion made by Mr. Belinder, at the suggestion of Alderman Morrison and Alderman Craig, that there be a very large number of the advocates of the viaduct at the meetings of the council. These members of the city legislative bodies stated that the presence of many citizens gave great force to a request made, and that if the lobby was filled with citizens when the petitions were received the request would be a very hard one to deny. The plan was considered a good one and was promptly adopted by the meeting.

The meeting was not as well attended as others have been, and for that reason those present were urged to bring out their friends at the meeting next week and make the movement more vigorous. Mr. George Baer presided over the meeting. The first matter was the report of Alderman Morrison, who was chairman of a committee to ascertain the facts relating to the proposed condemnation proceedings that might have to be instituted. He said that he had gone over the matter with City Counselor Rozzelle and there were no legal barriers visible. In going over the matter with Cit Engineer Filley it was found that the plans for the viaduct at Twenty-fourth street contemplated an embankment thirty feet high and 740 feet long and that the cost was practically the same as the proposed one at Seventeenth street.

The grades on Seventeenth street marked it as the natural highway

that the cost was practically the same as the proposed one at Seventeenth street.

The grades on Seventeenth street marked it as the natural highway across the city from east to west, and the grade was far ensier and better in every way than was to be found on either of the other places proposed.

Regarding the limits of the proposed benefit district, it was at first proposed to bound it as follows: Broadway to State Line and 150 feet on either side of Seventeenth street, but it had been decided that the limits were far too small, and later it was decided on the suggestion of the gentleman to bound it as follows: State Line to Grand avenue, Fourteenth street, but it had been decided that the limits were far too small, and later it was decided on the suggestion of the gentleman to bound it as follows: State Line to Grand avenue, Fourteenth to Twentieth streets. It was argued that in making the district large it would engender less antagonism and make the taxes less and cause less opposition on the part of the taxpayers.

The report was discussed and the meeting then took up the matter of the petition that was drawn by Alderman Morrison that had been circulated by Mr. Hagerman. It was read and explained by Alderman Morrison, and was a request to the city council to refuse to grant the request of the stock yards company for the vacation of Bell street and the alleys adjacent until the company agrees to accept the viaduct at Seventeenth street and makes the proper arrangements for shouldering its full share of the expenses connected with its construction. He said that the time to act is now and it is an imperative duty. Mr. Hagerman said that now while the stock yards company is asking for something is the time to make the counter request, and that if it was allowed to fall at this time it was good-by to the viaduct, as there would be no farther opportunities for making so favorable an arrangement for the matter.

Alderman Morrison said that arrangements were already made by the Metropolitan Street Railway Company

Alderman Morrison said that arrangements were already made by the Metropolitan Street Railway Company for moving its tracks from Bell and Genesea streets to Genesee and Wyoming streets and thus practically shut off the streets of the West bottoms for public travel, and he argued that such a step made the need for the proposed viaduct imperative and called for the people to act promptly in the matter and save future annoyances.

It was then decided to appoint a committee to secure signatures to the petition. The chairman called for voluntiers to carry copies of the petition and saveral gentlemen responded. He then appointed the following as the petition committee: Miller Hagerman, Whyam Nelson, Al Conkright, Louis Palm and J. H. Emmert.

Nelson, Al Conkright, Louis Paim and J. H. Emmert. Alderman Robert Craig made a short speech, in which he urged the voters of the city to appear at the meetings of the council when the matter comes up for

It was decided to have copies of the petition at the drug store at Sixteenth and Penn and also at Alderman Morrison's drug store at Fifteenth and Grand avenue. The press committee was called to time for the failure to do the duty prescribed and instructed to do better. A suggestion from Alderman Morrison that the people come to the next council meeting was put in a motion by Mr. Belinder and carried, and those present agreed to have many of their neighbors with them Monday evening at the meeting of the city council. There will be another meeting Saturday evening at the same place. It was decided to have copies of the

DO WONDERS EVER CEASE?

The Verdict of Baby Ethel-Mamma Is, No!
—It Was Almost a Miracle.

About three weeks ago our baby Ethel who was then two and one-half months old was taken ill. She kept growing worse, and the dreadful disease held complete sway. The physician we called could not help her. The child was in momentary danger of choking to death when Dr. Carson, of sed broadway, Kansas City, was called. He found the case a well developed one of pneumonia and la grippe. When he first saw her she was gasping continually and in intense pain, but no sooner Dr. Carson laid his hands on her than she breathed easier and cassed gasping for breath. The doctor fought the hard fight with death, until the little soul seemed suspended between life and death, half in our embrace, half in that of the Conqueror. But the power of Dr. Carson was sufficient to weigh the balance on the side of life and our durling was restored to us. There is not the slightest doubt in our minds that this doctor saved our buby, and it is in deep gratitude and with hearty pleasure that we submit this testimonial to the public. MR. and MRS. W. J. SHOOKMAN. About three weeks ago our baby Ethel

JUDGE M'DONALD, OF FORT SCOTT. He Once Brought Charges Against Warden

He Once Brought Charges Against Warden Chase.

Judge McDonald, of Fort Scott, Kas., who brought charges last summer against the official conduct of Warden Sam Chase, of the Kansas penitentiary, was in the city vesteriary. He left last evening for Fort Scott, but will return to Topeka during the week, where he is to be a witness before the investigating committee in the Chase case. When he appears before the committee he is to tell some of the matters that caused him to bring the charges last summer.

ESCAPE FROM DEATH'S JAWS.

Remarkable Experience of a Mexican One of the most remarkable cases of restoration to health is that of Mr. Del Paso, a citizen of Mexico, who has been in Kansas City during the past winter. raso, a citaen of alexico, who has been in Kansas City during the past winter, engaged in the shipment of large quantities of Mexican fruits to this and other cities, he being one of a large firm of gentlemen in Mexico engaged in the development of the fruit industry. About four months ago Mr. Del Paso was taken suddenly ill with a severe attack of rheumatism, followed by total paralysis. After medical aid failed to give him any relief his friends advised him to send for Dr. Carson. When this doctor was called Mr. Del Paso was unable to move his position in bed, being totally helpless. In less than one month of Dr. Carson's Vitai Treatment Mr. Del Paso was able to walk about his room and in less than three months has been restored to health. This is certainly a case where life was restored to a man given up by his friends to die.

th Refused a Liberal Purse.

The regular monthly session of the Kansas City Teachers' institute was held yesterday morning at 9 o'clock at the high school. After roll call and some preliminary remarks, Major H. A. White, principal of the Woodland school, sprang a great surprise on Superintendent Greenwood by presenting him, in behalf of the Kansas City teachers, a purse of about \$500, to go toward defraying his expenses on his proposed European trip this coming vacation. Superintendent Greenwood was completely surprised and overcome by the generous courtesy of his teachers, but positively relief to accept the gift. In a touching speech, he told the teachers that it was as hard for them to earn their money as for him, and that he still expected to make the visit to Europe and to visit the schools of Germany.

Conscience Makes Cowards Refused a Liberal Purse.

Conscience Makes Cowards Of us all, says Hamlet, but there are some people who have no conscience at all. Among them are dealers who endeavor to palm upon the public cheap, corrosive substitutes of pare and fragrant SOZODONT. Let the public be on its guard against such shams.
